lens angle

About Slinex

Since 2005, we have been creating video intercoms, outdoor panels, as well as additional accessories for our devices.

Slinex has earned a reputation as a leading innovator in the field of video intercoms.

Our slogan: Design. Uniqueness. Innovations.

Design

Choose the device that you like.

A diversity of designs and color solutions will allow you to choose a video intercom and an outdoor panel that fit perfectly in your home.

Uniqueness

Call forwarding to a smartphone. The outdoor panel works even without a monitor.

Ability to build a complete surveillance system. Anti-vandal protection. This is just a small part of the unique capabilities of Slinex devices.

Innovations

Slinex doesn't just follow trends. It sets a trend.

Crystal Pixel Technology and AHD-H High Definition Camera Support, Cloud Intercom with Cloud Call technology, IPS screens, as well as support for contactless cards EM-Marlin and MIFARE - all that is needed for the most sophisticated user.
